

APR 14 1961

April 14, 1961

Dear Harvey:

I again want to thank you for the highly interesting and informative talk on the Geography of Insular Southeast Asia which you gave on March 27 in the second session of our regional seminar on that area. I understand from Hattie Colton that she and the students were enthusiastic about your presentation and especially appreciated the slides of the Philippines which you were good enough to show. I only regret that I was not able to be present, due to my attendance at the AAS meeting in Chicago.

Thanks also for accepting our invitation to talk again on the same subject in the third session of the Regional Seminar on Southeast Asia on Tuesday, April 25, from 9 a.m. to 12 noon in Room 1500 at the Institute. The audience will be somewhat smaller than the last and about the same size as the first one in the current series. I will see that the room is again set up for slides.

Sincerely yours,

William F. Spengler
Training Officer
School of Foreign Affairs
Foreign Service Institute
